Success will require more than accounting skill. You'll need the curiosity to question, the empathy to influence, and the confidence to bring balanced, constructive challenge. You'll motivate and empower a capable team, embedding accountability and ownership while keeping a close eye on detail. The environment is open and collegiate; good humour, perspective and people sense will go a long way.

We're looking for a qualified accountant (ACA, ACCA or ACMA) with experience of a regulated environment who combines a meticulous approach with commercial breadth. Someone who sees beyond the numbers — who can use data to drive insight, efficiency and profitability, and who enjoys helping talented people and good businesses become even better.

This is a rare opportunity to join a long-standing, independent brand with national reach, loyal customers, and clear commercial ambitions. The business combines heritage with momentum and the right Finance Director will play a central role in helping it to grow further.

If you're proactive, data-driven and commercially minded — and you want to play a defining role in the next chapter of a respected, forward-thinking insurance group — we'd love to hear from you.
